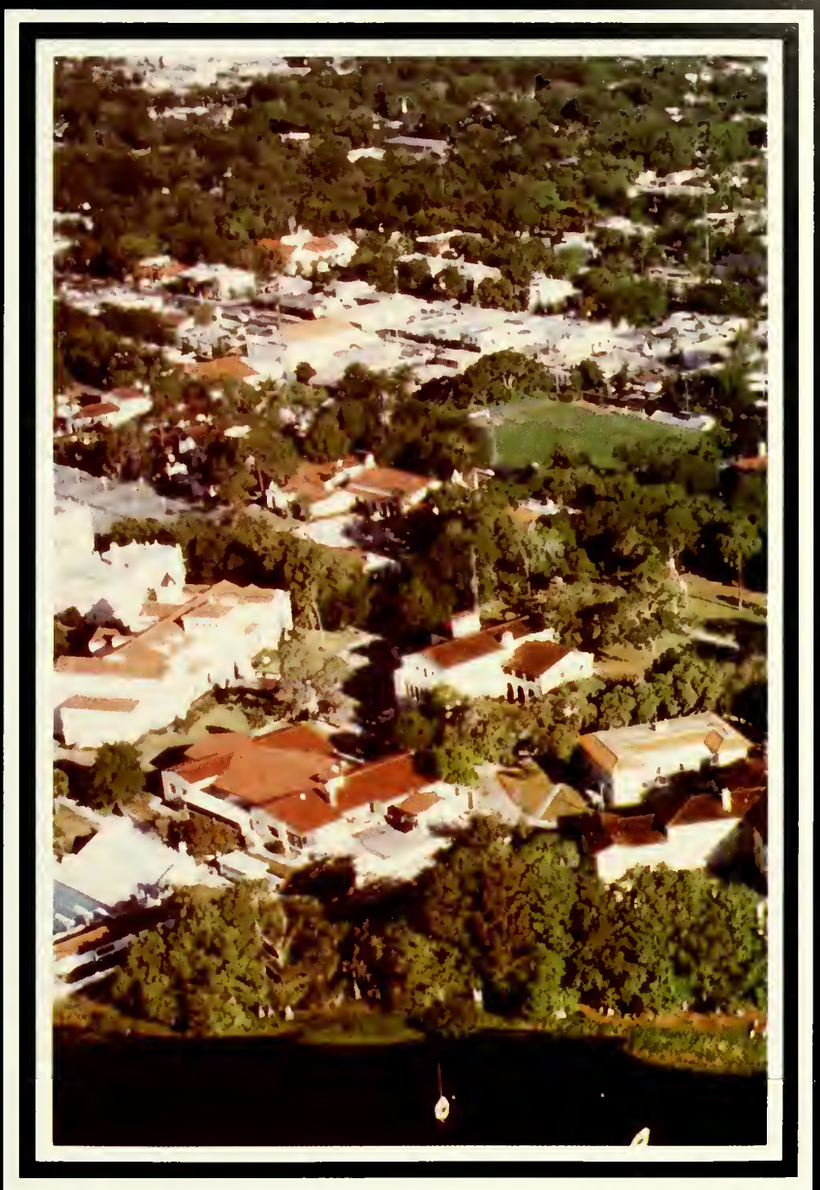
ROLLINS



COLLEGE

Years from 1993, when you leaf through the pages of this Tomokan, what will you most remember about your experience at Rollins? Rooting for the basketball team in the Field House? The Chapel bell ringing? The news of Fox Day? Eating in the Beanery? Late nights in Olin? An animated debate with a favorite professor? Laughing with friends?

President Rita Bornstein

I hope you remember Rollins for what you learned here, and I hope that what you learned is respect for yourself and others, good judgement, integrity in your personal and professional lives, a sense of responsibility to your family and your community, a commitment to lifelong education, devotion to freedom and democracy, and , above all, to think, to question, to challenge, and to speak out on issues.

We challenged you to set your goals high, to see failure as temporary, and to give every situation the best which you are capable. You are forever a part of the Rollins family, and we will be following your path with great interest.

Rita Bornstein

"You are forever a part of the Rollins family..."

A University of Georgia graduate, Thomas Peterson received his Bachelor's Degree in Art in 1951. Drafted into the United States Army, Professor Peterson was in the Korean War and during his army career, was stationed in California and Alaska.

After his service, Peterson traveled to New York City where he stayed for five years. During those years, he attended Columbia University where he received a Masters in Fine Arts Degree.

Professor Peterson joined the Rollins staff in the fall of 1958. During his teaching career at Rollins, he participated in a variety of shows throughout the 60's, 70's and 80's. As an original member of the Board of Visitors, Professor Peterson was present for the opening of the Cornell Fine Arts Building.

Currently, Professor Peterson lives in Winter Park with his wife Hallie, who is also a professor at Rollins, continuing his painting.

With wind gusting up to 200 mph and a 12-foot tidal surge, Hurricane Andrew caused massive destruction in Southern Florida. "It's like a bomb hit," said one Florida City resident, looking at the remains of the trailer park where he and his wife lived. Tent cities were set up in Florida with room for 3,800 people.

More than 20 companies, including McDonald's Corp., Coca-Cola Co. and Sears, Roebuck and Co., launched a national campaign in September 1992 to encourage U.S. businesses to buy recycled goods. Major cities of the U.S. either have, or have plans for, some type of recycling program.

Leanza Cornett is crowned the first Miss America from the state of Florida. The entire Rollins community celebrated this Hamilton Holt student's achievement. She plans to speak about AIDS awareness during her yearlong reign. Cornett said her "ultimate goal" is to get a group of drama and theater students together whose performances would "give AIDS kind of a hopeful message."

'92 IN REVIEW

Hurricane Andrew's 54-hour United States rampage, the most expensive natural disaster ever in the country, caused an estimated loss of $20 billion in Florida, $1.5 billion in Louisiana and $250 million in the Bahamas.

Three months after the world woke up to one of the worst famines in history, food started to reach hundreds of thousands of Somalis. Estimates of the dead range from 100,000 to half a million, but no one knows just how many have perished in the Horn of Africa nation. The central Bay region of the country has been most affected. It served as the main battleground for clans fighting for supremacy. Central Somalia is where the international community has concentrated its relief efforts.

ELECTION '92

Bill, Hillary, and daughter Chelsea Clinton stand in the midst of the Democratic National Convention in New York's Madison Square Garden. In an emotional address to the convention, Clinton told delegates he accepted the nomination "in the name of all the people who do the work, pay the taxes, raise the kids and play by the rules–the hard-working Americans who make up our forgotten middle class."

On election night, many gathered at the Student Center where up-to-the-minute election results were being broadcast. CNN was projected onto the large screen in the middle of the Student Center, while ABC, CBS, and NBC each had monitors to the side. Friends gathered to cheer on their favorite candidate.

Bill Clinton turned out an impressive version of "Heartbreak Hotel" with Arsenio Hall's house band, the Posse, in the musical opening of "The Arsenio Hall Show". Hall said of the presidential hopeful's talent on the saxophone, "It's good to see a Democrat blowing something other than the election."

George Bush and Dan Quayle roused the GOP delegates to cheers at the Republican National Convention as they accepted their party's nominations for a second term. Bush struck a new defiant tone in his acceptance speech– a marked contrast to the 1988 oration in which he promised a "kinder and gentler nation." Bush vowed to go to "every corner of this nation" in the political fight of his life to beat Bill Clinton and "clear out the deadwood" in Congress.

In May, H. Ross Perot was a potential president; in August, he wasn't. Eleven weeks to the day after he abandoned plans to run, saying he had concluded he could not win, the Texas billionaire was reintroduced to presidential politics. As he rejoined the race, Perot said he was running to win. The Perot Factor caused a great impact in the race, even though he never left third place.

"When I first came to Rollins, I had the idea that I would only be here for one year. Well, I don't think that idea even lasted through Orientation. Small classes, a beautiful campus, and close friends–no other college offers so much and asks so little. I don't think that I will ever be able to forget Rollins–it has given so much to me."

Hooker Hall is where Chi Phi Fraternity resides so come through the front door and see what's inside!
If you turn left, "Feet" you will find. If you don't watch out he'll get you from behind.
If you turn right there is "Kurt and Fruity." Kurt's the goaly and Fruity's just fruity.
Now "Higgins" has gone and found a girl, no he's never drunk and we never see him hurl.
Across the hall is "Worf and Pig Pen." They drink together and they are the best of friends.
Then we come to the first floor's end. If you look around you'll see "Ian."
Now let's go upstairs to our second story. Don't open the door or it will be glory.
There is "Flipper and Little Bro, the Stain." All I have to say is things don't change they remain the same.
Across the hall there is a real Chi Psi brother, that is my man "Seed," like him there is no other.
We venture down the hall, on the left you'll find "Frost" putting on a show, but when Frosty post up it's time to go.
Then peer across the hall, but don't be alarmed, it's just the "Swine" putting on that MassHole charm.
Down the hall is the Bahamian named "James" who at first wanted Phi Delt, we questioned him and wondered if he needed help.
Next door you step, there is the man we call "Toph," every weekend he turns into a drunked "oof."
Then across the hall you'll find "Lindsey." He knows not what to do; he's never in his room 'cause he's with some Phi Mu.
Next to him "Will the Thrill you'll see, he's just Wilber, and never thrilled me.
On we go to "Big Fat Ken." The loudest and most obnoxious of the crew. But then give any man twenty beers and they will be too.
Out the door we go to the quietest in the place. There is John Curtis. He always has a smile on his face.
On we go to the back of our fortress, where your first encounter is "Steg."
He made a decision to leave the team and now has returned from the dead.
Across the hall is "Fuzzy" Zeller, and this is true, he's a partying S.O.B. and always has a chew.
Next to Zeller in the joining room is "Big Lou." He gets messed up on the weekends, but can't wait to see his chick at F.S.U.
Slipping out the door and across the hall, you'll find "Butler." A man w/ a lot of balls. He's a scrappy mother and he is able. Give him a chance and he will drink you under the table. Down the hall we walk and you'll run into "Digger." He's Pig Pen's friend (but who would figure).
Across from here is "Green", "Lanza," and "Homey." Lanza's sick on the quitar. Green is last at the bar and Homey welds the six-pointed star.
Up to the third floor, and on the left, you'll find "Sameth" and "Shady." Sameth can pound a ball like a beer and Grady has gotten way shady this year.
"Wolfe" came from Ward with something to prove, and we are glad he made the move.
In the troll den, you'll find Chaser, and up there you will manage. But with the best cave he has not taken full advantage.
Across the way is the "Crabby" one. He is crabby, but it's all in fun.
Trek across campus and into Ward. This is where you'll find the men who bare the swords.
There is "Daddy," "Goluf," "Fatty," and "Big Neil." They party and dominate the first floor, and that's the real deal.
But as an R.A., they have brother Kevin. Who puts aside his duties once the clock chimes eleven.
Out the doors and to Elizabeth we go, where you'll find men who put on a show. There you will find our man "Rocky." He may appear quiet, but we all know he's cocky.
On you'll go to the room of "Caputo"-and what a smokey mess. He's the R.A. of the place, but who would have guessed.
Next door we have "Lacle." He's just as bad as Joe, but in his own sort of way.
Then there is Dixie and Cecere, whom we never really see. They have to set up camp elsewhere. This is nothing new to me.
In the hall of NCM is Judd, the brother of a thousand names. We all get a kick out of his and "Beenie's" reindeer games.
Then off-campus to Spanky's we roam. It is here with Kelly he has set up home.
Finally, to the U.K. we go. Where you'll find our long lost brother, we know only as "O."

Bitterly divided over their future, voters, in what remains of Yugoslavia, voiced opinions today. 1992 December 20 ●

The International Students Organization (ISO) of Rollins College seeks to bring together students and others who are interested in linking people from different parts of the world together for social and cultural activities. Its members include international students and U.S. students whose families may have newly arrived or have been here for several generations. The countries represented in the school currently are Bahamas, Switzerland, Germany, Spain, Philippines, and Trinidad. In essence, we are a global family, living the international scene through the mutual exchange of cultural and social values and ideologies. Some of our past, present, and future goals and achievements entail community projects such as tutoring programs, feeding the homeless, and Habitat for Humanity. In addition to these efforts, ISO is involved in many other activities which are intellectually, culturally, and socially stimulating. We celebrate holidays from all over the world with activities, international films, and sponsoring Around the World Meals.
